Professional Summary

Experienced Software Engineer with a background in developing and integrating web applications. Adept at client consultation, API development, and data management. Seeking to join Accenture to leverage my technical expertise and innovative approach in driving seamless system integrations and enhancing business processes.

Relevant Experience

Professional

Software Engineer Consultant · SMARTECNIA SL

Madrid, Spain · Jan 2024 — Present

- Lead the development of a dynamic and responsive website using React, TypeScript, TailwindCSS, and GraphQL, providing a seamless user experience and efficient performance tailored for the construction industry.
- Integrate various third-party APIs to extend the website's functionality, including construction management tools and customer relationship management (CRM) systems, which increased user engagement by 30%.
- Regularly consult with the firm's clients to gather requirements, provide progress updates, and ensure the solutions meet their specific needs and preferences, resulting in a 95% client satisfaction rate and a 20% increase in project approval speed.

Freelance

Software Engineer · Los Tercios

Madrid, Spain · Aug 2022 - Dec 2022

- Utilized HTML, Sass, React.js, Next.js, and TypeScript to build and enhance both in-house and client websites.
- Monitored website performance and implemented optimizations to enhance load times by 35%, significantly improving overall user experience and contributing to a 15% increase in repeat business.
- Implemented responsive design principles to provide a seamless experience for users on both desktop and mobile platforms.

Software Engineer · Worksut

Madrid, Spain · Mar 2022 - Aug 2022

- Developed and maintained front-end components of Worksut's platform using React and TypeScript, ensuring high performance and responsiveness.
- Utilized Azure services for cloud infrastructure, implementing scalable solutions to support platform growth and user engagement.
- Participated in Agile development methodologies, contributing to sprint planning, daily stand-ups, and retrospectives.

Social Work

Disaster and Humanitarian Relief · Cruz Roja

Madrid, Spain · Mar 2022 - Present

Work as a Translator to assist Ukrainian refugees in settling down in Madrid, offering support and assistance as needed.

Skills

Programming Languages
JavaScript (ES2016+), TypeScript, HTML, CSS, Sass, GraphQL, Python, SQL, Go

Libraries & Frameworks
React, Next.js, Gatsby, Node.js, Tailwind CSS, Styled Components, Bootstrap, Flask, Django

Tools & Platforms
Git, GitHub, Netlify, Vercel, Heroku, Docker, Webpack, Figma, Postman

Selected Projects

Pharmchat
A web application that functions as a chatbot, providing users with immediate information on any drug directly from the FDA Drugs APIs. It also includes an "Ask AI" feature, where users can pose health-related questions and receive responses from Open Assistant AI.

CSRF Protection
A secure web application to handle CSRF protection for authentication, utilizing Django for the backend and Next.js for the frontend. The application secures routes by fetching a CSRF token from the backend and making secure requests to the server for authentication processes.
